TOUR SYMBOLS

To assist in your tour selection, these symbols represent the following:

This symbol indicates excursions chosen last season by Princess passenger for overall tour quality and outstanding customer service.

This symbol indicates tours that can accommodate passengers who utilize a wheelchair. Most tour operators require that wheelchairs are collapsible. Space restrictions may preclude transport of electric wheelchairs & walkers. If booking one of these tours you must notify the Shore Excursion Office 48 hours prior to your excursion so that arrangements can be made to meet your particular needs.

These excursions require a moderate level of activity, such as walking for short to moderate distances over relatively level terrain, possibly with some steps. These tours may be able to accommodate passengers with limited mobility as long as guests can move into and out of motor coaches, rail cars and confined spaces such as floatplanes, helicopters & small boats.

These excursions require a more substantial level of activity, such as walking for more moderate distances or extended periods of standing or stair climbing.

These tours are the most active excursions and participants should be physically fit. Activities such as scuba diving, hiking, biking, or kayaking are examples.

Participation in shore excursions shall be conclusive evidence of your acceptance of the terms and conditions set forth in the cruise ticket passage contract, the shore excursion tour ticket and other documents, including the independent tour operators' own terms and conditions, which expressly release Princess Cruises and the tour operators from any liability for participation and otherwise effect each participant's legal rights.
